

HDMI to HDBT Rack Module

Theatrixx

#XVVRM-HDMI2HDBT

The HDMI to HDBT Rack Module is a unit option for the 8-Bay Reversible Rackmount Converter system. The module can be inserted in the 8-Bay Frame in either direction, allowing the inputs/outputs to be positioned either at the front or the back of the unit depending on the application. There are no exposed PCBs as all modules are enclosed, and therefore protected against static shock, dust and general wear and tear. Gold-plated, redundant spring pins with magnetic retention deliver DC power to the modules, meaning no messy cabling and external power bricks are needed.

Connections

Video Input

HDMI 1.4 with lock system

Ethernet

Locking RJ45 EtherCON connector

Video Output

HDBaseT 1.0 on shielded
EtherCON connector

Recommended cable

UTP CAT6a with EtherCON connectors

Supported Signals

Video Format Support

HDMI 1.4

HDCP Support

HDCP 1.4

Ethernet Support

100 Mbps

Physical

Height

121.5 mm (4.78 in)

Depth

225 mm (8.85 in)

Width

41 mm (1.61 in)

Weight

710 g (1.56 lbs)

Environmental

Relative Humidity

0 % to 90 % non-condensing

Power Requirements

Power Supply

Reversible redundant power fed by TXVV-RF8 (8-Bay Rackmount Frame)

Power Consumption

20 W

Operational Voltage Range

12 VDC
