## GOLD & Custom Stage Boxes

### SB Gold

SB Gold 48, 56 and 64 channel Stage Boxes, have been purposely designed to satisfy the need of distributing signals in large venues. Ideal when used with individually shielded multi-pair **eurocable** (e.g. 48, 56 and 64 pairs) on cable reels and with LK audio multi-pin connectors (e.g. 150 and 200 pins). These Stage Boxes, manufactured in 19" rack boxes, feature individual Ground Lift switches and are also available with passive splitters. All the connector contacts used in the SB Gold Stage Box (XLR and LK multipin) are plated in gold, to guarantee the maximum contact reliability. The HD 600 cable reel can store up to 100 meters of 48, 56 or 64 individually shielded pairs **eurocable** (the use of a Flight Case is strongly recommended).

### Codes

SB 48	Stage box 48 IN with GND lift (2 LK150)
SB 48/8	Stage box 48 IN; last 8 ch. in parallel with 8 male XLR; GND lift (2 LK150)
SB 48X8	Stage box 48 IN with GND lift + 8 OUT (2 LK200)
SB 56	Stage box 56 IN with GND lift (2 LK200)
SB 56/8	Stage box 56 IN; last 8 ch. in parallel with 8 male XLR; GND lift (2 LK200)
SB 56X8	Stage box 56 IN with GND lift + 8 OUT (2 LK200)
SB 64	Stage box 64 IN with GND lift (2 LK200)
SB 48X8 3	Stage box 48 IN with GND lift + 8 OUT (3 LK200)
SB 56X8	Stage box 56 IN with GND lift + 8 OUT (3 LK200)

### Split version

SB 48 SPL	Stage box 48 IN with GND lift (2 LK150)
SB 48/8 SPL	Stage box 48 IN; last 8 ch. in parallel with 8 male XLR; GND lift (2 LK150)
SB 48X8 SPL	Stage box 48 IN with GND lift + 8 OUT (2 LK200)
SB 56 SPL	Stage box 56 IN with GND lift (2 LK200)
SB 56/8 SPL	Stage box 56 IN; last 8 ch. in parallel with 8 male XLR; GND lift (2 LK200)
SB 56X8 SPL	Stage box 56 IN GND lift + 8 OUT (2 LK200)
SB 64 SPL	Stage box 64 IN with GND lift (2 LK200)
SB 48X8 SPL 3	Stage box 48 IN with GND lift + 8 OUT (3 LK200)
SB 56X8 SPL 3	Stage boxes 56 IN with GND lift + 8 OUT (3 LK200)

### SB Gold accessories

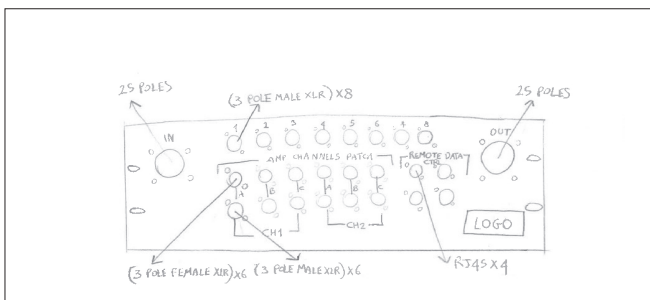

AV HD600	Steel cable reel, OD 600 mm, width 600
AV FS600	Cable restraining straps for HD600
FLY HD600	Flight case for HD600
FLY SB	Flight case for stage box

### Custom Solutions

Link offers customized engraving on standard panels as well as fully customized panel construction and engraving services. Our application engineers directly work with our customers to design products directly from specifier or end user provided documentation. Submittal drawings will be provided for final approval prior to manufacturing. Our precision CNC machines, laser engraving, and paint lines are capable of producing a single product or large quantities suited for your specific requirements.

### From scratch...

Step 1

Step 2

Step 3

### When forwarding your drawings please remember:

- Panel dimensions
- Height and cut out of the connectors
- Writing and markings.

## AD System

The modular concept of the AD Distribution System allows for the assembly of Stage Boxes tailored to the customers' exact requirement providing an opening system which is adaptable to future possible needs. With the basic elements such as the 8 channels IN and OUT modules, Splitter units, and ADS modules a wide range of configurations are obtainable. The internal connections by flat cables grant maximum flexibility to the system, while the cable connections using multipin LK connectors, guarantee good connection stability to the whole system.

### AD OUTPUT Modules

The output module has eight male XLRs on the front panel and one 26 pin flat cable connector mounted on a PC Board.

### ADF Modules

ADF 2RU panels use the capability of the multipin LK range to connect up to 64 channels using only multipin connector. The 26 pin flat cable connectors allow XLRs connections.

### AD SPLIT

The AD SPLIT modules have been purposely engineered for highly professional applications. They provide a clean split signal thereby maintaining the same quality in multiple outputs over long distances. Each Input channel is divided by the AD SPLIT module into 4 outputs: two are in parallel and two are individually split by high quality transformers. The Ground Lift switch on the AD 8 IN provides isolation so that the second parallel output (Direct Out) can be used to assign the 48 V Phantom power to each channel.

### AD INPUT Modules

The standard input panels feature a Ground Lift switch for each channel and AD Link board to allow each channel to be set parallel to three flat cable connectors. The input modules are available in two versions: the AD 8 IN which has eight female XLRs connectors and two 26 pin flat cable connectors (to allow the Ground Lift switch to operate on a Front Of House or on a Monitor Mixer), while the AD 8 IN 8 J module has eight Combo connectors allowing the input of XLR (balanced signals) or of a jack plug (unbalanced signals). The unbalanced signals are balanced by a transformer.

### AD Flat

The connection between the AD and ADF modules is made with flat extension cables. They are also available in different lengths on request.

Audio "Splitter" Transformer (Triple Faraday Shields)		
Transformer characteristics	Transformer ratio	01:01:01
	Induttance primary circuit at 100 Hz, 1V	> 12 Hy
	Resistance primary circuit	56 Ohm
	Resistance secondary circuit 1	140 Ohm
	Resistance secondary circuit 2	135 Ohm
	Distortion (THD) at 50 Hz	≥ 70 dB (1 KHz) ≥ 50 dB (20 KHz)
	Common-mode rejection ratio (CMRR) 150 Ohm balanced source	< 0,05% (+30 dBU) <1% (+13 dBU)

# Compact & Modular Stage Boxes

### SB

**T**he compact design of the new SB box is ideal where space is at premium. The SB box has an LK multipin connector mounted on the box, which allows the multipair cable to be disconnected for storage.

### SBF

**T**he SBF range come with SS cable and ends with XLRs with fan out. The individual pairs are protected by Techflex for maintaining ultimate flexibility. Mixer inputs are colored in black and Mixer outputs are colored in red.

### SBS

**T**he SBS come with SS cable permanently attached to the box (individually shielded multi-pair eurocable) in different lengths with an LK multi-pin line connector.

### SP

**T**he SP System, permits separate IN & OUT channels on Stage by running only one multi-pair cable on the long distance (Stage to Mix). The box is manufactured in 15/10 mild steel.

### SPF

**T**he SPF range comes with SS cable terminated to M/F XLRs with a fan out. This expanded version of the stage box has permanently attached eurocable multi-pair and is available in various input and output combinations. The individual pairs are protected by Techflex for maintaining ultimate flexibility. Mixer inputs are colored in black and Mixer outputs are colored in red.

### SP2

**T**he SP2 System is ideal for applications where two mixers (FOH and MON) are used. As in SP System, it has a second LK multipin chassis connector on the box in parallel for the Monitor Mixer.

**SB Boxes with LK chassis male connector**

SB08AN	SB box 8 ch with LK25 chassis male connector

## DRIVE AMP I/O SYSTEMS

The Link Drive and Speaker Cable Distribution System combines several of our cutting edge products in a practical and easy to use cable system reflecting the company's philosophy to provide innovative and dependable wiring solutions.

Robust rack mounted interface box specifically designed for terminating all audio drive lines, Ethernet and speaker outputs, featuring:

- LK 54 Pin In and Through audio connectors for terminating 12 Audio pairs and 2 Ethernet signals.
- LKS 16 Pin Speaker Connector for terminating 8 independent speaker channels.
- Left/Right Speakon NL8 connectors for independent feeds and sub outputs.
- Speakon NL2 tails to connect to amplifier outputs 4 XLR AUX Outputs.

### **eurocable** 16N40 - Ultra Flexible 16 conductor Speaker Multi-Core

Specifically designed for the connection of multiple amplifier touring systems, the new LK16N40 16x4 mm<sup>2</sup> (+/- 11 AWG) multi-core continues the **eurocable** tradition of providing strength and flexibility for portable applications while maintaining exceptional electrical properties. Combined with the LKS 16 speaker connector, LK16N40 speaker cables offer stunning reliability and easy to use.

### **eurocable** SSAD12C2U Audio Multi-Core

Designed to facilitate audio drive rack and data signals featuring 12 individually jacketed shielded audio pairs with two integral CAT6 UTP Ethernet cables for data and/or digital audio transmission. The LK 54 multi-pin connectors make connecting the DRIVE IO and AMP IO easy.

# Snake SNK-FNT-FNN (Coder)

## Snake SNK

All the extension and fan out described below can be used with AD Distribution system and are assembled using individually shielded multi-pair eurocable and the multi-pin LK connectors range. The SNK extension range is terminated with LK multi-pin cable connectors on both ends, to permit the connection between the XLRs fan out and the stage box.

**F2** 2 Ft or 60 cm  
**F3** 3 Ft or 90 cm  
**F4** 4 Ft or 120 cm  
**F5** 5 Ft or 150 cm  
**F6** 6 Ft or 180 cm  
**E1** 1 Ft or 30 cm w/Ethercon  
**E2** 2 Ft or 30 cm w/Ethercon  
**E3** 3 Ft or 90 cm w/Ethercon  
**E4** 4 Ft or 120 cm w/Ethercon  
**E5** 5 Ft or 150 cm w/Ethercon  
**E6** 6 Ft or 180 cm w/Ethercon

## UNIT MEASURE

**Empty** Feet  
**M** Meters

## Snake FNT-FNN

The FNT-FNN range has an LK multi-pin cable connector at one end and XLRs on the other end (Mixer) with an customized Fan-Out. This is made up of pairs which are protected by a special coloured Tec Flex maintaining flexibility. The extensions may be rolled up on one of the above suggested cable reels for easy handling.

## Techflex

The use of the coloured techflex allows the easy identification of the channels in the fan. The unique braided construction and wide expandability allows quick and easy installation over large connectors and long runs. The range of colors allows easy installation and systematic color coding in complex wiring and cabling schemes.

**Techflex** is braided from 10 mil polyethylene terephthalate monofilament yarns. The material has a wide operating temperature range, is resistant to chemical degradation, UV radiation, and abrasion. The sleeving cuts easily and cleanly with a hot knife and once installed, will beautify and protect any wire, hose or cable application.

## Box and Panels

### 19" Boxes

19" boxes are the ideal base to build up your own easy-to-set audio or video power derivations. Manufactured in 12/10 steel plate and finished in orange peel black dust epoxy. Suitable for housing all kinds of 19" rack panels. All boxes are pre-punched for LK connectors. Punching corresponds to the connector size according to the channel number suitable for the specific box. This may be covered by an appropriate plate if not required.

### 19" Rack Boxes

The front and the rear panel are manufactured in 30/10 black finished aluminium plate; they are available in 1, 2 and 3 rack units consisting of a "U" shaped base and top lid. They can be supplied with pre-punched holes on the front and rear upon request.

### Blank panels

#### Standard

These panels, featuring 19" standard rack size, are used mostly to cover empty units on the racks. Manufactured in 30/10 aluminium plate, they are finished in smooth, black dust, epoxy.

#### Reinforced

Similar characteristics to the standard panel but manufactured in 20/10 aluminium plate with a 90° fold, top and bottom, to give better rigidity.

### Prepunched panels

Pre-punched panels available in a wide range of size configurations for easy and time-saving assembly of various types of connectors (XLRs, CEE form sockets, LK connectors). Manufactured in steel plate, and finished in smooth black dust epoxy with silk-screen identification.

### Ventilation panels

Specifically designed to cover empty units, thereby giving extra ventilation in the racks. They are manufactured in 20/10 aluminium plate with a 90° fold, top and bottom, to give better rigidity.

### Blank and punched lids

Blank lids are available for the entire range of LK connectors (PF2 L\*\*\*) as well as blank lids and BNC "D" series XLR adaptors (PF D, PF BNC, ...).

## 19" Boxes

BOX P1 25	1U Stage box, punched for LK25
BOX P2 35 54	2U Stage box, punched for LK 37 and LK 54
BOX P3 85/150	3U Stage box, punched for LK 85 and LK 150
BOX P4 85/150	4U Stage box, punched for LK 85 and LK 150

BOX P3 85/150

## 19" Rack Boxes

BOX R1D	1U Rack box, depth 170mm
BOX R2D	2U Rack box, depth 170mm
BOX R3D	3U Rack box, depth 170mm

BOX R1D

## Blank Panels

PN1 A	1U blank rack panel
PN2 A	2U blank rack panel
PN3 A	3U blank rack panel
PN4 A	4U blank rack panel
PN5 A	5U blank rack panel
PN6 A	6U blank rack panel
PN1 AR	1U reinforced blank rack panel
PN2 AR	2U reinforced blank rack panel
PN3 AR	3U reinforced blank rack panel
PN4 AR	4U reinforced blank rack panel
PN5 AR	5U reinforced blank rack panel
PN6 AR	6U reinforced blank rack panel

## Ventilation panels

PN1 ARV	1U reinforced ventilation rack panel
PN2 ARV	2U reinforced ventilation rack panel
PN3 ARV	3U reinforced ventilation rack panel
PN3 AR3V	3U reinforced ventilation rack panel 3 slots

## Prepunched panels

PF1 08T	1U prepunched panel for 8 XLR with T-bar
PF1 J08T	1U prepunched panel for 8 XLR + 8 Jacks with T-bar
PF1 12T	1U prepunched panel for 12 XLR with T-bar
PF1 16T	1U prepunched panel for 16 XLR with T-bar
PF2 L51925	2U prepunched panel for 5 LK 25
PF2 L43554	2U prepunched panel for 4 LK 37/54 and LKS 19 pins
PF2 L285	2U prepunched panel for 2 LK 85/150/200
PF2 GW	2U prepunched panel for 6 Gewiss 16A sockets
PF2 VI	2U prepunched panel for 24 Din module
PF3 VI	3U prepunched panel for 24 Din module
PFAV1X04	Prepunched AX 100 cable reel side panel for 4 XLR
PFAV2X12	Prepunched SP 380 cable reel side panel for 12 XLR
PFAV3X24	Prepunched SP 450 cable reel side panel for 24 XLR

## Blank and punched lids

PF D	Blanking plate for D series punching
PF BNC	Adapter plate BNC - D series
PF BNC FP	Adapter BNC - solder
PF TP 19/25	Lid for LK 25 punching
PF TP 35/54	Lid for LK 37/54 punching
PF TP 85/150	Lid for LK 85/150/200 punching

## Pre Made Range

**eurocable**

### Instrumental double shielded cable with Neutrik Jacks

### Microphone cable with Neutrik Jacks or 3 pin XLR connectors

### Mic double shielded cable with Neutrik 3 pin XLR connectors

### Mic Starquad cable with Neutrik 3 pin XLR connectors

### Digital double shielded cable with Neutrik 3 pin XLR connectors

### Speaker cable with Neutrik Speakon connectors

\*Length: **3m** **5m** **10m** **15m**

All products are also available with Amphenol connectors
