ProPlex®

RDMigo Cable

Active USB to XLR Adapter
Manage Your Rig from the Ground!

- Manage, monitor, and control any RDM device from your computer

- Enables the powerful ProPlex Software suite and most other RDM/DMX computer software programs

- Perform address and mode changes; monitor RDM feedback — all at your fingertips!

- Doubles as fixture firmware updater cable

- Great for show prep

- Ideal for venues where access to fixtures is costly or difficult

- Includes XLR 5-pin M-M turnaround

Download FREE ProPlex Software software at https://tmb.com/proplex-software/

Warning: To eliminate risk of damage to your computer, we recommend connecting through an opto-splitter.
