

EQUIPMENT ENGINEERED FOR ENTERTAINMENT

# UniJack™ with 80 mm Castor

## Technical Details

Part No: UJA4201

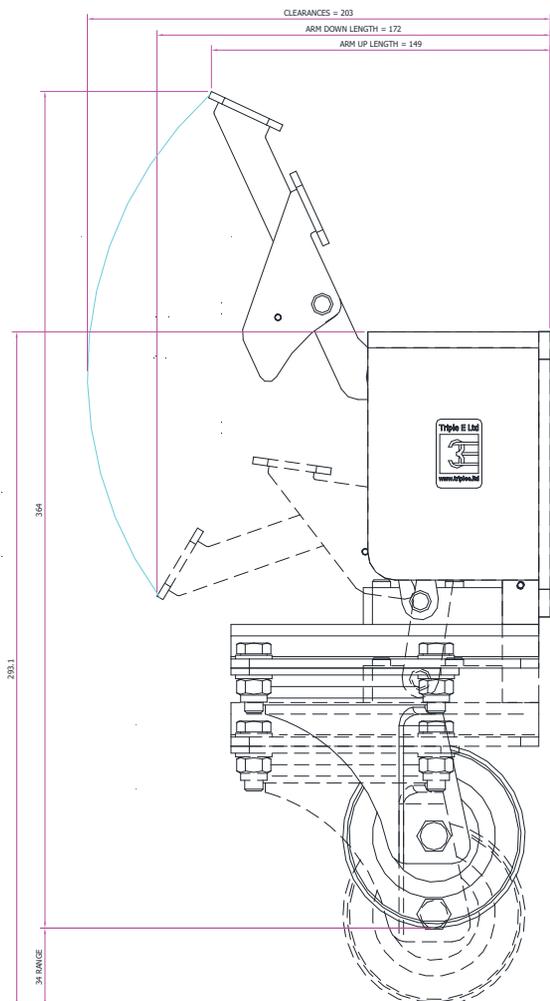

WLL: 200 kg  
Weight: 3.6 kg

Materials: Mild Steel S275  
Finish: Zinc Plated and Powder Coating

2022 Update: the UniJack has been updated in order to prevent accidental releasing of the brake. The two sizes have been combined into one stronger body.

All UniJacks™ can be fitted with a keyplate (UJA4501) and lift off studs (UJA4601) fitted to scenery allowing multiple items to be moved with the same set of UniJacks™.
