

Ovation E-4WW IP

Designed to perform as the brightest outdoor-rated LED ellipsoidal fixture available anywhere, capable of projecting an even field of high CRI light for superior gobo projection with exceptionally long reach. Compatibility with standard Ovation lenses, integrated GR-1 Gobo Rotator power/data port, and dedicated Focus Mode button make for convenient operation. 3000K Warm White output with smooth 16-bit dimming to the very bottom of selectable dimming curves along with selectable PWM ensure brilliant performance both live and on camera.
