

# Single Mode Unbreakable Optical Cables

The **eurocable** FOHD unbreakable LSZH singlemode fiber optic cables from Link have been created to satisfy the demanding elements of the entertainment market when using new signal distribution systems with connections for optical signals, where cables that can withstand the day to day use for live events is crucial. Designed to tolerate extreme bend radiuses with zero attenuation, the triple jacketed cable is reinforced with aramid fibers to ensure maximum tensile strength.

Available with multiple termination methods, LSZH is a next generation cable specifically designed for live entertainment and broadcast applications.

- Tactical SM 9/125 Multi Fiber Optic (6) Cable

MADE IN ITALY

## TECHNICAL DATA

Attenuation		< 0,4 dB/Km at 1310 nm	
		<0,25 dB/Km at 1550 nm	
Operating temperature	Installation	-5° C +50° C	
	Operation	-40° C +80° C	
Minimum bending radius		2,5 cm	
Breaking load		3000 N	

## GENERAL DATA

GENERAL DATA				
Cable	O.D.		5.20 mm	7.20 mm
	Weight	Kg/100m	3.70	5.60
Jacket	Inner jacket	Material	LSZH compound	
		Color	Yellow	
	Second jacket	Material	-	PVC
		Color	-	Black
	Outer jacket	Material	PUR	
		Color	Black	
Under jacket strenath element			Aramid fiber braid
